- 1.2. The Articles of Association also containing rules and regulations appertaining to membership are available to view on the Institute's website.

2. Grades of Membership

- 2.1. There are eight grades of membership within the Institute:

- 2.1.1. **Life Fellow** (corporate) with designatory letters FIFSM (Life).

Elected by recommendation of the Council, this is the highest grade of membership and is awarded to those who have demonstrated exceptional dedication and expertise in the field of fire management and to the Institute. The Life Fellow is a lifetime membership. There will be no limit to the number of Life Fellows.

- 2.1.2. **Fellow** (corporate) with designatory letters FIFSM.

Fellow members will have made significant contributions to the industry. Elected by recommendation of Council or by self-application following at least eight years of membership at Member grade.

- 2.1.3. **Member** (corporate) with designatory letters MIFSM.

Members are professionals who have achieved a high level of competency and knowledge in the field of fire management. Members have over five years of experience and usually have a Level 4 or higher certificate in a fire safety-related field or are able to evidence their knowledge.

- 2.1.4. **Associate** (corporate) with designatory letters AIFSM.

Associates are professionals who are on their path to becoming member grade. They possess a foundational understanding of fire management principles and are actively working towards advancing their careers and expertise in the field. Associates have over three years of experience and usually have a Level 3 or higher certificate in a fire safety-related field or are able to evidence their knowledge.

- 2.1.5. **Technician** (non-corporate) with designatory letters TIFSM.

Technician grade is for those who are starting out in their career in fire safety having up to three years of experience and usually a Level 2 or higher certificate in a fire safety-related field.

2.1.6. **Student** (non-corporate) with designatory letters SIFSM.

Student members are individuals who are currently enrolled in full time educational programs related to fire safety or are currently undertaking a fire safety-related apprenticeship. Eligibility will also be considered for those undertaking shorter courses based on the course undertaken and the applicant's limited experience in fire safety, which must be less than two years. This grade allows them to access resources and opportunities to develop their knowledge and skills in preparation for future roles in the industry.

2.1.7. **Honorary** (non-corporate) with designatory letters Hon MIFSM.

Honorary members are individuals who may not have the necessary fire related experience and qualifications to satisfy the other grades of membership but have been given recognition of substantive contribution they have made to the Institute.

2.1.8. **Affiliate** (non-corporate): No designatory letters are attached to this grade.

Affiliate members are companies that support the goals and mission of the Institute. While they do not have designatory letters, they have use of the Affiliate Member logo to show their association with the Institute.

2.1.9. **Retired** (non-corporate): with designatory letters RIFSM.

The Retired member status is open to those at any member grade who wish to retire but still attend events, receive news updates and be a part of the Institute.

2.2. Membership grades are categorised as either corporate or non-corporate. Corporate member grades are entitled to vote during the election of Council Members and the President.

2.2.1. Corporate member means any individual admitted to membership with one of the following grades: Life Fellow, Fellow, Member, or Associate.
